# Projects

- FIT in these seven years of life has been part of three national and 7 international projects.
- The national projects have been funded by the Ministry of Education and Science and were focused on Scientific Research.
- It has completed 3 Tempus project. One of them is RICUM which has been very successful, and where our faculty has been an important key actor for this success. The Study program Multimedia and Digital Television was the product of RICUM project.
- More information and details on these projects may be found on the references stated as below:

Erasmus+

# Ongoing projects

- DIMTV- FIT is the main actor responsible for leading successfully this project.

Erasmus+

# Ongoing projects

- **ITG4AU (IT governance for Albanian universities)**
- This project is aimed to gather a set of researchers from four European universities with a wide experience in developing and deploying IT Governance (including ITG4U and dFogit) framework models from three different countries (Spain, Germany and Norway) to develop, adapt and test a new IT governance framework to be implemented in several Universities in Albania. Expected results of this project include a better governance model for IT in Albanian HEIs as well as an overall modernization of the governance processes for HEIs and a contribution of the cooperation between EU and Albania.

Erasmus+

# Ongoing projects

- **CEPUS (Central European Exchange Program for University Studies)**
- The CEEPUS network modelling, simulation and computer-aided design in engineering and management focuses on the various applications in technical as well as economical areas and their fundamental principles. This network supports the mobility of students as well as the mobility of lecturers.

# Ongoing projects

- **Learning Exchange Initiative for Sustainable Hospitality SMEs in the Balkan-Mediterranean Region (HELIX)**

The lead: Varna University of Management, Bulgaria

Main objective of this projects is to increase the competencies for **sustainable business and innovation in the Balkan-Med hospitality sector**, in particular by developing effective learning and practice communities, learning tools and joint educational offers aimed at strengthening sector-specific skills for sustainability and adoption of technological and managerial innovations.
